SUMMARY

- **QA Engineer** with nearly **two** years of hands-on experience in **software testing**, proficient in **designing** effective **test cases** and identifying **critical defects**. Skilled in collaborating with **development** and **product** teams to ensure **high-quality** software delivery, **optimized** performance, and long-term product **stability**.

WORK EXPERIENCE

Test Engineer   **Feb 2025 - Present**

Altoura India Pvt Ltd

- Led **cross-platform validation** across **Web**, **iOS**, **Android**, and **HMDs**, tailoring **QA efforts** to platform-specific behavior and ensuring reliable **functionality** across environments.
- Designed **high-coverage** test cases for critical user flows and **edge cases**, aligned with **requirements** and **functional** specifications.
- **Tested** nested **CRUD** workflows across **components** handling media, audio, and 3D assets, ensuring robust **data integrity** and **isolation** at the interface level.
- Verified **platform-dependent** RBAC to ensure accurate, platform-specific **access** control and prevention of **unauthorized** actions.
- Tested **concurrency** and **synchronization** to ensure **consistent** versions and conflict-free updates during simultaneous **cross-platform** edits.
- Validated **compatibility** across **devices**, **browsers**, and **OS** versions to ensure **responsive** design and consistent **functionality**.
- Validated **video-to-structured-content** conversion, ensuring accurate **segmentation** into contextual titles and descriptions for **seamless** instructional flow.
- Managed the full **defect lifecycle** in **Azure DevOps Boards**, logging and **tracking** issues by **priority** and **severity**, and ensuring accurate reproduction, **verification**, and closure.

Quality Assurance Analyst   **Aug 2023 - Jan 2025**

Surreal Technologies

- Designed and executed detailed **test cases** for complete **functional** and **non-functional** coverage, using **impact analysis** to proactively address **potential** issues. Achieved **100% test** coverage across **critical** functionalities.
- Led **end-to-end** testing for a vehicle **tracking** system with third-party **API integration**, performing **API validation** and **database** verification. Addressed multiple high **priority** and **severity** bugs, ensuring data integrity.
- Validated **RBAC** to ensure accurate **access** control, reducing **unauthorized** access and **security** risks
- Coordinated with **developers** and **product managers** as the **sole QA** liaison, ensuring feature **stability,** timely **defect** resolution. Facilitated multiple successful **feature releases** with minimal post-release issues.
- **Managed** and **tracked** bugs using **JIRA** and **ClickUp**, prioritizing issues based on **priority** and **severity**. Documented detailed **bug reports** and provided updates to ensure timely releases, **reducing** average bug resolution time by **20%**.
- Conducted **API testing** with **Postman**, verifying **data** exchange and **response** handling across various endpoints. Validated **multiple APIs**, ensuring **100% data accuracy** and reliable responses.
- Developed and executed comprehensive **test plans** covering all **testing phases**, maintained a stable **test environment**, and documented results in detailed **test reports** to support **informed releases**.

SKILLS

- **Technical Skills:** Manual Testing, UI Testing, API Testing, Java, Selenium WebDriver, Rest-Assured, TestNG, Postman.
- **Bug Management :** JIRA, ClickUp, Azure Devops Boards.

EDUCATION

Bachelor's Degree   **Aug 2018 - Aug 2022**

- KLE ACADEMY OF HIGHER EDUCATION AND RESEARCH ,BELAGAVI.

Pre-University College   **Mar 2016 - Mar 2018**

- GURU NANAK IND PU COLLEGE ,BIDAR
